

**CALL FOR PARTICIPATION**  
**1<sup>ST</sup> CReST Faculty Development Workshop**  
**July 13-14, 2015 – The George Washington University, Arlington VA**  
+++++

Dear Colleague,

We are pleased to invite applications to participate in the **1<sup>st</sup> CReST Faculty Development Workshop**. Organized by The George Washington University, the workshop will be held **July 13-14, 2015** at the **GWU Graduate Center in Arlington, VA**.

This engaging workshop will offer support for faculty members who want to broaden their teaching repertoire by weaving relevant security topics into traditional computer science courses.

Ideal workshop participants are **faculty members with *no experience* teaching security topics** who teach courses such as:

- Computer Literacy
- Introductory Programming I (CS0 or CS1)
- Introductory Programming II (CS2)
- Web Development
- Software Engineering
- Database
- Networks
- Operating Systems

*Do you plan to teach any of these courses in the upcoming academic year? If so, join us!*

The workshop will feature innovative security curriculum along with guidance on how to implement it in the classroom, networking opportunities with peers and experts, and remarks from leading cybersecurity experts in academia, government, and industry.

**APPLICATION & REGISTRATION ARE FREE!!**

**PARTICIPANTS WILL RECEIVE A \$2,000 STIPEND!!**

Apply here: <https://www.surveymonkey.com/s/CReST4CS>

**APPLICATION DEADLINE – APRIL 3, 2015**

Space is limited. Apply today.

For more information, contact:

**Dr. Diana Burley**

**GW Professor and workshop organizer at [dburley@gwu.edu](mailto:dburley@gwu.edu)**
